Udyam Digital

Making small businesses go digital in one sitting:
on a phone, in their own language

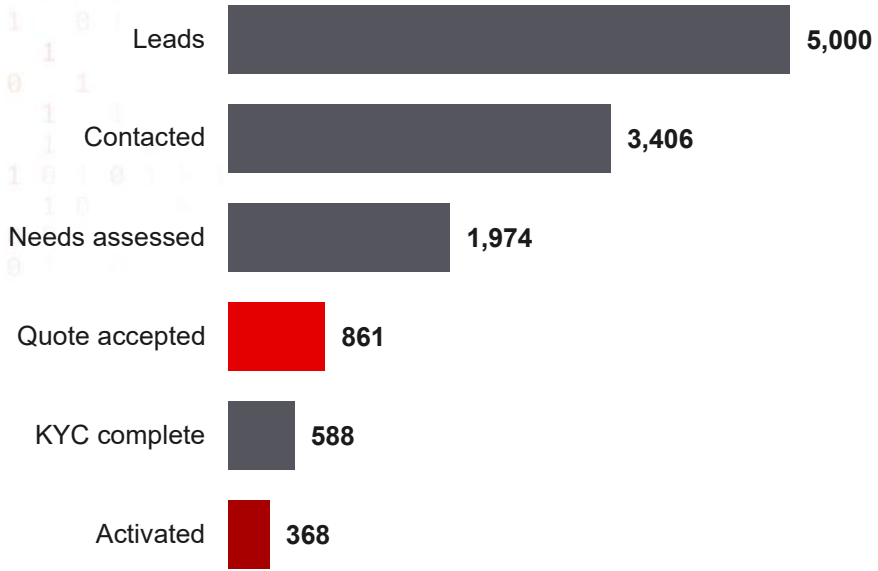

YTL Hackathon 2026 · Enterprise Track A
AI advisor · transparent quote · smart KYC · order tracker

Platform Partner unstop

93 of 100 leads are lost, a third to fixable friction

5,000 SMB leads, Apr–Jun 2026 (case data, smb_leads.csv)

Steepest drop: needs assessed → quote accepted (44%)

1,485 drops (32%)

are fixable by a digital journey: no time for a visit 531, visit never scheduled 296, quote too complex 206 or too slow 179, paperwork and documents 273

17.6
days lead to activation

3–5
days for a quote today

3×
status chases per customer

₹15,000
blended cost to acquire one SMB

1,594
lost before first contact (34%)

Start with professional offices: high conversion, low CAC

Conversion and economics by segment (case data)

Segment	Leads	Conv.	CAC	Bundle/mo	Churn
Professional offices	**1,247**	**11.1%**	**₹10,695**	**₹6,796**	**13.8%**
Small multi-site	755	11.0%	₹15,614	₹31,233	10.8%
Small manufacturers	289	12.8%	₹15,324	₹19,980	8.1%
Micro retail & services	2,709	4.1%	₹20,007	₹2,505	22.7%

Why not micro retail first? It is 54% of leads, but converts at 4.1%, costs the most to acquire and churns most. It stays self-serve only, with a light mobile + POS bundle.

1

Wave 1 · Professional offices

Clinics, CA firms, law offices, coaching centres: standard bundle, fully self-serve

2

Wave 2 · Multi-site & factories

Highest bundle value (₹31,233 and ₹19,980/month): digital quote, field sales close

3

Wave 3 · Micro retail

Self-serve, GSTIN-free options; GST registration unlocks more (9.6% vs 2.0% activation)

Clear bundles, honest prices, set by rules, never by the AI

Priced live by our quote engine inside each product's catalogue range

Office ready

6-person clinic · Tier 1

₹3,933

/month · ₹0 one-time · 12 months

Biz Fibre 300
Cloud email × 6
Cloud backup 1 TB
Endpoint security × 6
Optional 4G/5G failover

Multi-site

5-outlet restaurant chain

₹19,595

/month · ₹43,000 one-time

Fibre + failover per outlet
Cloud CCTV × 10
Cloud POS per outlet
Guest Wi-Fi
One bill for all sites

Mobile quick path

Owner who wants only SIMs

1-month

contract · no forced bundle

Business postpaid lines
Upgrade later in one tap
Soft upsell, never pushed

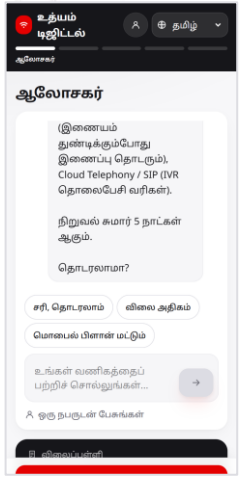

✓ **Minutes, not 3–5 days**
for a quote: the advisor prices live, in the owner's language

✓ **No sales visit needed**
removes the top drop reason (531 leads had no time for a visit)

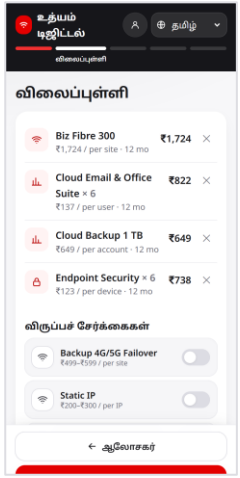

✓ **“Too expensive” handled**
cheaper eligible tier shown with the total contract cost

One phone session replaces the sales visit, KYC included

Language → AI advisor → quote → consent → smart KYC → order tracker

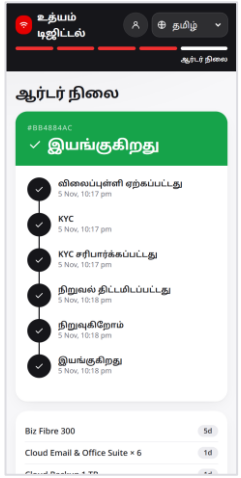

1 **Advisor in Tamil**

2 **Clear quote**

3 **Smart KYC**

4 **Live tracker**

KYC under the DPDP Act 2023: consent per purpose before upload · blur/skew caught instantly · GSTIN and Udyam registry checks · names, address, bill age cross-checked · unclear cases go to a human · images deleted at decision or 30 days

27/27 advisor eval conversations pass, 11 of them multilingual

10 languages, plus Hinglish and Tanglish

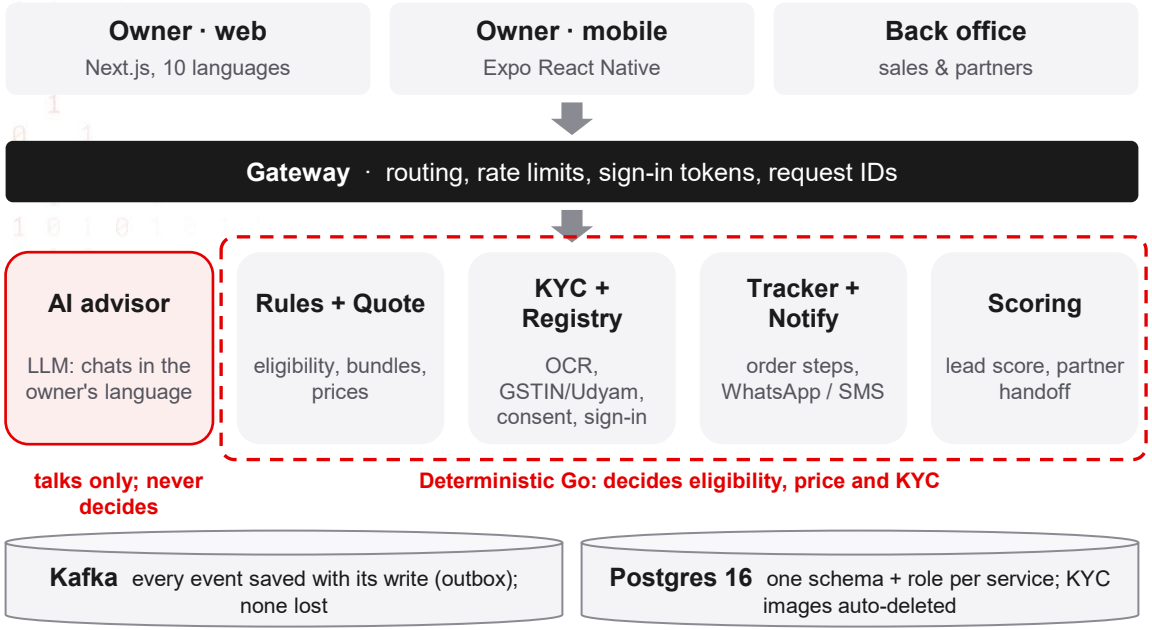

12/12 KYC specimen applicants give the expected verdict (pass, re-upload, review, reject)

0 invented products or prices: a guard blocks any number the services didn't return

Platform Partner unstop

Built like a production system, sized for a national rollout

Simplified view · full diagrams in the repo: docs/architecture.md

1. **Decisions are code**

   eligibility, pricing and KYC verdicts are deterministic Go; the LLM only talks and explains

2. **Nothing is lost**

   transactional outbox + idempotent consumers + dead-letter topic; Kafka or a service down: no event lost (drills pass)

3. **Private by design**

   own schema + DB role per service; masked IDs; owner OTP sign-in; transcripts back-office only

4. **National scale**

   regional gateways, Kafka partitioned by lead, Postgres per region (data residency)

Rollout, weekly KPIs and what we need to launch

Targets are proposals to agree with Accel Business sales leadership

1 Pilot · wk 0–8

Professional offices · 8 Tier 1 cities · English, Hindi, Tamil

2 Wave 2 · wk 9–20

Multi-site + factories: field sales close · partners get scored warm leads (2.4× in top decile)

3 Scale · wk 21+

Micro retail self-serve · Tier 2 cities · WhatsApp entry point

Lead → activation	Fixable drops	Quote → KYC done	Days to activate	CAC, prof. offices
11.1% now	32% now	68.3% now	17.6 now	₹10,695 now
15%	**< 15%**	**85%**	**< 10**	**< ₹7,500**

Risks designed for: prices are code and a reply guard blocked 6/6 prompt-injection attacks · per-language evals · DPDP consent, deletion, masked IDs · score only orders call lists · partners credited for handoffs · no fibre → automatic 5G AirFiber offer

Asks

Sales leadership: approve the professional-offices pilot and targets

Field & partners: handoff workflow and partner credit

Compliance / DPO: consent text and retention periods

KYC & risk: review-queue SLAs and routing policy

Network ops: fibre feasibility data, install dates

Billing & support: one bill, tracker for 'where is my order'
